University Anonymous Social Platform

PHP + AJAX + JS based anonymous university social platform

---

1 Features

- **Anonymous User System** – Students can register and interact without revealing personal information.
- **Dynamic Posts & Comments** – Real-time posting and commenting powered by PHP + AJAX + JS.
- **Admin Panel** – Easily manage users, posts, and reports. (Contact me for Panel)
- **Customizable Themes & Colors** – Brand the platform for your university or community.
- **Easy Setup** – SQL import + config setup → platform ready in minutes.
- **Security-Focused** – CSRF, XSS, and SQL injection protection included.

---

2 Requirements

- PHP 7.4+
- MySQL / MariaDB
- Apache or Nginx web server
- cURL and PDO PHP extensions enabled
- Modern web browser (Chrome, Firefox, Edge)

---

3 Installation Steps

1. **Upload Files to Server**
    - Upload all files to your `public_html` or web root directory.
2. **Create Database**
    - Use MySQL / MariaDB.
    - Import the SQL script:
3. **Edit config.php**
    - Enter database credentials:
    - includes/config.php

```
<?php
define('DB_HOST', 'localhost');
```

```
define('DB_NAME', 'Anonymous');
define('DB_USER', 'root');
define('DB_PASS', 'password');
```

4. **Demo Admin Login (Contact me to view.)**
    - Email: `**********@gmail.com`
    - Password: `admin123`
    - Change the password immediately after first login

4□Usage

Admin Panel

- Manage users: ban / delete / approve
- Moderate posts and comments
- Customize themes and colors
- View site statistics and daily reports

User Panel

- Anonymous registration and profile creation
- Post content, comment, like
- Earn badges and receive notifications

5□Customization

- **Logo:** `/gorsel/logo.png`
- **Text & Language:** `/lang/tr.php` (or `/lang/en.php` for English) (paid version)

6□Security Recommendations

- Protect `config.php` from public access
- Use a strong password for the admin panel
- Keep your server updated
- Use SSL certificate (`https://`)

7□Support & Contact

- Documentation & setup help: eniscagrigilik1@gmail.com

- I want to assure you that I won’t leave you stranded. Anonymous was originally developed entirely for my personal use, but I’ve decided to make it available for purchase.When you acquire it, I will be there to support you through every step—from installation to daily use, from customization to any technical issues that may arise. My goal is to ensure that you can use the platform smoothly and efficiently.You’ll have guidance and support for any questions or requests, so you can confidently use Anonymous without any uncertainty.With Anonymous, you can create a secure and anonymous social platform for your university or student community. Quick to set up, easy to use, and fully customizable.
